

Thewlis - DAR Trail

Points of interest: Harold Thewlis donated 27 acres of wooded upland to The Nature Conservancy in May 1994. TNC then passed ownership of the property to the South Kingstown Land Trust. Thewlis Woods features stands of eastern white pine, scarlet oak and beech. Turkey, coyote, fisher, and many other animals find food and shelter on this property. A 0.8 mile hiking trail built in 2006 by John Tarasevitch as an Eagle Scout project, and generously funded by the Daughters of the American Revolution (DAR), gives the hiker access to this beautiful property.

Directions to Trailhead: From Route 1 southbound take the Pond Street exit. Bear right and follow Pond Street for 0.6 miles to intersection with Main Street. Take a left on Main Street and continue 0.3 miles then bear right onto Old Post Road. Follow Old Post Road for 0.18 miles then take a right onto Pine Hill Road. The road takes a sharp bend to the left then climbs a small hill. Proceed for 0.32 mile. Park on the right side shoulder just before the trail sign
